

**EXHIBIT 10**

**1. [REDACTED] (ID 8963), Alabama-Bessemer, Software Engineering, 3/2007-12/2010:**

*“At one time, I though I would like to get my Masters but ITT credits do not transfer unless you want to go to another school similar to them.”*

**2. [REDACTED] (ID 8011, 6091), Alabama-Bessemer, CNS Computer Network Systems, 6/2005-6/2007:**

*“My credits will not transfer to any other school and if they were accepted my level of education would be so low due to ITT I would fail any class I was moved in. For me to go to school I would have to start over again due to ITT’s educations low quality.”*

**3. [REDACTED] (ID 8204), Alabama-Bessemer, Computer Electronics Engineering Technology, 3/2005-3/2007:**

*“Yes they advised me if I was to leave for a better school my credits would not transfer and all will be lost.”*

**4. [REDACTED] (ID 8303), Alabama-Bessemer, 9/2008-2/2010:**

*“I was told by the recruiter that ITT was fully accredited and that the credits would transfer to any other college in the state. I cannot find a school that will accept ITT tech credits due to their damaged reputation and the fact that they are only nationally accredited rather than regionally accredited as they told me when I enrolled.”*

**5. [REDACTED] (ID 8167), Alabama-Bessemer, Criminal Justice, 9/2008-3/2010:**

*“Stated that the credits would transfer anywhere, that this was a good solid education. I went to University of Alabama after I graduated to see about transferring my credits and continuing my education. They looked at my transcript and told me nothing would transfer from ITT, and that my “degree” was a worthless, expensive, piece of trash. The only school I found my credits would transfer to was University of Phoenix. And even then, not all of the credits would transfer.”*

**6. [REDACTED] (ID 9144), Alabama-Bessemer, 9/2007-3/2012:**

*“Upon going to ITT during registration, I was told that they were accredited and I could transfer my credits anywhere if I choose to do so for any reason. While I went to school there, I was also a work-study there and found out that they were in the process of trying to get accredited from what I was told. Right before I left I heard that they were not accredited at all and former students had issues finding any college to accept the credits.”*

**7. [REDACTED] (ID 8301), Alabama-Bessemer, Information Security Systems and Technology, 6/2005-8/2009:**

*“Only schools would take a minimal amount of ITT-TECH credit was other for profit school such as strayer university but not all credits transferred.”*

**8. [REDACTED] (ID 5814), Alabama-Bessemer, Digital Entertainment and Game Design, 1/2003-1/2007:**

*“I was told in the interview process that all of my credits would transfer to other schools. I later found that nothing would transfer to other schools as the accreditation system/service that they used was not recognized by any state university or community college.”*

**9. [REDACTED] (ID 9225), Alabama-Bessemer, Digital Entertainment and Game Design, 8/2006-1/2010:**

*“I was also told during enrollment, after I asked about the accreditation and possibly transferring credits that they were already applying for it and should have regional accreditation within the next year, which seemed to always get pushed back another year whenever I asked about it.”*

**10. [REDACTED] (ID 7924), Alabama-Bessemer, Computer Network Systems, 9/2002-9/2004:**

*“Also, none of the credits were recognized at any other academic institution. When I attempted to re-enroll in a traditional school, I was informed that zero of my credits would transfer. Effectively forcing me to start from scratch. Except with a 400 dollar a month student loan payment.”*

**11. [REDACTED] (ID 4710), Alabama-Bessemer, 3D Game Design, 8/2004-8/2008:**

*“The credits acquired from ITT Technical Institute are non transferable, even though I was told they were.”*

12. [REDACTED] (ID 8551), Alabama-Madison, 3/2012-12/2013:

*“Yes. Told me the school was accredited. Told me the credits would transfer. Nope. I have contacted at least 8 community colleges and they will maybe take 3 classes out of the 20 I took.”*

13. [REDACTED] (ID 2619, 9720), Alabama-Madison, Electrical and Electronics Engineering Technology, 6/2012-12/2014:

*“As anyone who has tried can tell you, 99% of ITT credits won’t transfer. I briefly considered going to Wallace State, which is close to where I live, and found out I get to start over at the beginning. Worthless.”*

14. [REDACTED] (ID 9235), Alabama-Madison, Network Security, 9/2009-8/2010:

*“I was told that my credits would be able to be transferred to any major university, it was my original goal to follow up my education at UAH. To find out no other colleges accepted my credits not even for general education. I have attempted to go to another school several times to find out the semesters i attended at ITT are worthless to me. Being a single father it is hard to face having to completely start over.”*

15. [REDACTED] (ID 7233), Alabama-Mobile, CEET, 5/2012-5/2014:

*“I have enrolled in another university, but I am taking some classes over as the ITT tech credits did not transfer. I was not notified of this when I was getting information about the institution.”*

16. [REDACTED] (ID 8979), Alabama-Mobile, Information Technology - Computer Network Systems, 9/2009-9/2011:

*“Due to the accreditation of ITT Technical Institute I am not able to further my education without starting completely over. I was led to believe that other, more traditional colleges, would allow my credits to transfer. Since having graduated from ITT, I have learned this could not be further from the truth; no school that I have looked into attending is willing to accept credit transfers from ITT. This fact of having to completely start over is currently dissuading me from returning to a school of higher education to attain a Master’s degree or further. If I were not saddled with paying for a degree whose credits I can’t successfully transfer anywhere worth note and that is veritably worthless, since ITT has recently closed it’s doors, I would be furthering my education now.”*

**17. [REDACTED] (ID 9134), Arizona-Tempe, Criminology and Forensic Technology, 9/2011-5/2013:**

*“I know I need to go back to school but I found out that not even half if maybe half would transfer so that means I’d have to retake half of my classes I already took yet I still have to pay that huge sum amount of money that put me in debt[.]”*

**18. [REDACTED] (ID 7946), Arizona-Phoenix, AAS Drafting and Design, 9/2009-11/2011:**

*“ASU, UofA, NAU, Glendale community college, Mesa community college and university of Phoenix all told me my degree is not accredited and I would have to start from the beginning.”*

**19. [REDACTED] (ID 3684), Arizona-Tempe, 10/2004-5/2007:**

*“They told me that I could transfer credits to a major university after I graduated and completed the course. They definitely don’t tell you your degree will be useless to any other college or university. That’s because they want you to enroll in their bachelors program with another 60,000 in debt.”*

**20. [REDACTED] (ID 7953), Arizona-Tempe, IT/CNS, 5/2009-5/2011:**

*“I was also told that ITT was accredited and that I could continue my education else where, this is also not true. I was actually laughed at by Mesa Community College when I asked about enrolling to continue on to my bachelors degree. I was laughed at by a community college. They stated that my credits would not transfer. When I asked ITT about it they shrugged it off as no big deal, after they told me they would transfer. The Department chair even told me they would transfer then admitted the lie in front of the director and the dean of my campus.”*

**21. [REDACTED] (ID 9060), Arizona-Tempe, 3/2003-3/2010:**

*“I was told I get a job anywhere with my degree and I was told I could even transfer to another school if I wanted. The US Government doesn’t even hire ITT students due to its accreditation. I can’t even transfer to another school with my credits. I tried going to ASU, and NAU but credits can’t transfer. I’ve tried going to some Community colleges and I couldn’t transfer credits. I even tried joining the Navy to become an Officer and they don’t recognize ITT Bachelors Degree.”*

**22. [REDACTED] (ID 6438), Arizona-Tempe, 1/2001-5/2003:**

*“They stated that credits would transfer to other universities, like ASU. This was not true. No credits were accepted by any other school I attempted to transfer to. I had to start my college education completely from scratch since none of my credits transferred.”*

**23. [REDACTED] (ID 8160), Arizona-Tempe, 3/2006-3/2008:**

*“I tried to enroll in other schools, Glendale Community College among others, and was basically told that I would have to start over. This made pursuit of higher education impossible.”*

**24. [REDACTED] (ID 9415), Arizona-Tempe, Information Security, 3/2006-6/2011:**

*“ITT-Tech told me that my degree and credits would transfer to any collage when I started and that there accreditation was good as I expressed to them i wanted to persue my masters degree, yet this was a complete lie. to-date I am unable to presue my masters degree as no university will take my degree I received from ITT or my credits. I am now forced to start all over. I have tried and tried to pursue my master degree to help me but due to the lack of accreditation of ITT-tech all the University around me will not take my credits or my degree from ITT-tech.”*

**25. [REDACTED] (ID 8375), Arizona-Tucson, Computer Drafting and Design, 3/2004-3/2007:**

*“I wanted to go for a bachelors degree in computer drafting and design, at the time ITT did not have one for my field of study so I tried to go to the community college here in Tucson but my credits would not transfer so I was going to have to start all over.”*

**26. [REDACTED] (ID 5478), Arizona-Tucson, 9/3-6/7:**

*“I have tried to go to local universities and transfer my credits and was informed they would not accept my credits.”*

**27. [REDACTED] (ID 8725), Arizona-Tucson, Project Management, 8/2009-5/2013:**

*“I could not enroll into Pima Community College or The University of Arizona. Both school informed me that they do not accept ITT transfers.”*

**28. [REDACTED] (ID 5188), Arizona-Tucson, 6/2003-5/2005:**

*“I had to start from zero again when enrolling in any other college. [E]ven our local community college would not transfer my ITT tech credits.”*

**29. [REDACTED] (ID 5391), Arkansas-Little Rock, Criminal Justice, 3/2007-7/2010:**

*“They claimed that they offered all the classes required by state and federal guidelines for my degree program. But when I attempted to transfer my credits to another schools I found out half of my classes, including the core subjects, were not acceptable for transfer due to them not meeting the required in-class time or subject material covered. I was informed that only 70-75 of the 120 credits I earned in my time at ITT Tech would be transferrable and that was only if ITT Tech would release the credits to be transferred....which they refused to until I contacted the Department of Higher Education.”*

**30. [REDACTED] (ID 3874), Arkansas-Little Rock, Visual Communications/Game Design, 6/2002-3/2008:**

*“The recruiter had no problems telling me that accreditation was taken everywhere. It wasn’t so my credits wouldn’t transfer to a proper school once I figured out that the diploma I would receive from ITT Tech was useless. I tried to apply to University of Washington but none of my credits transferred so I would have to start over and I don’t have the finances for that.”*

**31. [REDACTED] (ID 2716), Arkansas-Little Rock, Information Systems Security, 6/2004-9/2010:**

*“We were told we could leave and go to a certain few schools and when I applied. I was told most of, if not all of my classes/ credits would not transfer.”*

**32. [REDACTED] (ID 8312), Arkansas-Little Rock, Computer and Electronic Engineering, 4/2009-4/2011:**

*“Citing that credits were transferable to other educational institutions when in fact they are not.”*

**33. [REDACTED] (ID 8943, 8941), Arkansas-Little Rock, 3/2005-6/2007:**

*“My credits did not transfer to the University of Arkansas at Little Rock. This cost me time and money to begin my education all over again.”*

**34. [REDACTED] (ID 3721, 3708), Arkansas-Little Rock, Criminal Justice, 9/2006-6/2010:**

*“We were originally told that ITT was fully accredited and that their credits and our degrees would transfer. It wasn’t until much later that I found out this wasn’t true. I tried to leave ITT but couldn’t take any of my credits with me to the local state colleges. Once I completed my*

*degree I tried applying at other schools and was denied because of where my degree came from.”*

**35. [REDACTED] (ID 3658, 7942), California-Anaheim, Digital Entertainment and Game Design, 6/2004-9/2009:**

*“When i attended they claimed credits were transferable. Not the case. They said they had students working in the videogame industry that could get me into the bussiness. They claimed strong connections with bussinesses and did not deliver. Teachers were not accredited to teach. Credits were sold at a point as being transferrable and accredited.”*

*“I was considering transferring to Fullerton university but my credits are not accepted.”*

**36. [REDACTED] (ID 7679), California-Anaheim, Data Communications, 3/2004-11/2009:**

*“They didnt fully explaing that their accreditation wasnt transferable to most colleges for continuibng education after graduation. I wanted to get my masters and found that none of my credits would transfer to open colleges. My company encouraged me to get an MBA and my choices were limited to for profit schools who had lower enrollment requirements. As such I got a degree from a non reputable school.”*

**37. [REDACTED] (ID 7009), California-Anaheim, CEET, 1/2003-1/2005:**

*“Was told our classes are all fully accredited to any and all schools except for a few ivy league campuses. Tried furthering me education at Cypress Community College, and found out not a single credit from my ITT education could transfer over, so its basically as if you never went to ITT and have to start from scratch all over again.”*

**38. [REDACTED] (ID 6884), California-Anaheim, Internet Networking, 6/2003-12/2003:**

*“They informed me that the classes I take at ITT would be transferable to a cal state. Tried to transfer to a community college in which none of the classes I took were transferable.”*

**39. [REDACTED] (ID 7121, 8198), California-Corona, Information Technology - Computer Network Systems, 12/2009-6/2012:**

*“They stated they they were accredited in addition to all credits would be transferable to most schools. Wouldn’t transfer credit to finish degree.”*

*“Degree at this time is worthless and isn’t transferable or accredited. Other school will not take transfer credits from ITT. So it is like starting over my with my degree.”*

**40. [REDACTED] (ID 6057), California-Culver City, Drafting Design, 6/2008-4/2010:**

*“This school is non accredited so i tryd to tranfer to santa monica college but they didn’t accept it.”*

**41. [REDACTED] (ID 9464), California-Culver City, Criminal Justice, 9/2009-12/2011:**

*“Im having a hard time having my credits transfered so i can continue my education without accruing more debit.”*

**42. [REDACTED] (ID 4139, 7977), California-Culver City, 10/2013-6/2015:**

*“Many schools state that ITT Technical Institute credits are not transferable since they have never been fully accredited to begin with.”*

*“Credits are not transferable based on what those schools informed me.I applied for more than 10 schools and they declined to accept all credits and time for a job field I had knowledge in before ITT. Because of ITT Tech, I may never be able to get my time and money back.”*

**43. [REDACTED] (ID 7103), California-Hayward, Information Technology Multimedia, 1/2002-1/2004:**

*“Certain classes that I had taken at ITT Tech did not transfer over to other Universities causing me to take those classes again which caused my Higher Education to cost more.”*

**44. [REDACTED] (ID 7700), California-Hayward, Software Development, 3/2016-8/2016:**

*“I tried to enroll in community college and they told me NOTHING transfers over from I.T.T.”*

**45. [REDACTED] (ID 8599), California-Lathrop, Computer Tech, 8/2001-7/2002:**

*“We were told our credits were going to be transferable but when I try to go back to school on a junior college only a few credits were transferable and I chose to wait to go back to ITT tech but now there close and I’m have to start all over when I go back to school.I need to retake classes cause credits won’t transfer.”*

**46. [REDACTED] (ID 3727, 8010), California-Lathrop, Criminal Justice, 5/2007-9/2012:**

*“When I tried to leave ITT- tech and transfer because I was starring to see the lies. I couldn’t all those years all those credit didn’t exist if I transferred.”*

*“The recruiter that assisted me in enrolling stated the Forensic class offered on the Criminal Justice program would be classes necessary for me to pursue a field as a coroner.”*

*“When I wanted to enroll to CSU Stanislaus I was informed my credits were not transferable. ITT-Tech failed to inform me.”*

**47. [REDACTED] (ID 7646), California-Lathrop, 1/2007-1/2009:**

*“In order to be promoted, i need a 4 year degree. Sadly, i cant transfer my credits to a more legit institution to finish 2 more years of school. ITT wants me to get into another mess of a loan situation and over charge me another \$40k to complete their bachelor program.”*

**48. [REDACTED] (ID 8970), California-Lathrop, Internet Security, 6/2006-6/2011:**

*“No one explained to me that the credits from this school would not transfer to a real school so i felt trapped.”*

**49. [REDACTED] (ID 8393), California-Lathrop, Criminal Justice, 9/2004-10/2005:**

*“I was told that all my credits could be transferred to any college of my choice if I decided to leave. Which was a lie nothing was able to transfer and the pre test before school I did not pass they lied on that. I tried to finish my degree at another school and that’s when I was informed none of my credit can be transferred. I would have to take the classes all over. Which means more money.”*

**50. [REDACTED] (ID 9289), California-National City, Information Systems And Cybersecurity, 2/2009-3/2014:**

*“It was explained that yes they were a fully accredited college and if I wanted to continue to my Masters that my credits would transfer. After begining the program I found out that the majority of colleges in the US did not accept credits nor acknowledge my degree. Furthermore at most employers ITTs reputation severely devalues my degree. I tried to pullout during my program to a State university but my credits would not transfer nor would ITT help me in transferring credit.”*

**51. [REDACTED] (ID 8973), California-National City, 12/2009-9/2013:**

*“Tried to transfer to a traditional state college but no credits transferred and I was already to far into my GI Bill to be able to do so without losing the rest of my benefits and having to pay back for benefits used so far.”*

**52. [REDACTED] (ID 9336), California-National City, CEET, 7/2007-9/2009:**

*“They told me that ITT was fully accredited and that I would’ve been able to transfer my credits when I signed up. They also sent a gentleman into my Electronics class that lied to every person in that class about accreditation. I had to start completely over at my community college because none of my credits transferred. This also caused me more time and money to transfer to a 4 year university.”*

**53. [REDACTED] (ID 5366), California-National City, Networking Systems Administration, 9/2012-6/2014:**

*“I found out after the fact that the school is not accredited and I am not able to transfer any of my credits to finish my schooling.”*

**54. [REDACTED] (ID 8755), California-National City, 6/2009-3/2013:**

*“I was unable to transfer to a different school because they didn’t accept ITT Technical Institute credits. I was unable to further my education in this field because of that reason.”*

**55. [REDACTED] (ID 7734), California-National City, Project Management and Administration, 12/2009-10/2013:**

*“We were told that they were nationally accredited. Once I realized that this school wasn’t what I had expected, I tried to leave but none of my credits would transfer, Not ONE! So since I was using the GI Bill I was pretty much at a loss so I felt trapped and felt like I was going to just have to finish my degree here otherwise my GI bill would have been wasted with out anything to show for it. Called three of the local colleges near me and not one of them would accept my credits from ITT. I felt trapped since I was using the GI Bill.”*

**56. [REDACTED] (ID 8440), California-Orange, Data Communications Systems Technology, 6/2007-6/2011:**

*“I tried to transfer to another colleges like UCLA but as I was trying to obtain more information I was told that my BS did not count and could not be transfer to that school or any other University of California.”*

**57. [REDACTED] (ID 6592), California-Orange, Criminal Justice, 6/2008-3/2012:**

*“During the program I had to finish because my credits would not transfer to another college so my options to leave the school and seek education at another institute was very limited.”*

**58. [REDACTED] (ID 9266), California-Orange, Electronics Technology, 1/2004-1/2008:**

*"I could not transfer any of my ITT credits to a local community college. I have to re take my general education and start from the beginning."*

**59. [REDACTED] (ID 9614), California-Orange, ASEE, 2/2009-9/2011:**

*"Was told that my credits could transfer to any school. I tried to attend a local university after graduation only to find out nothing could be transfered not even general education."*

**60. [REDACTED] (ID 4731), California-Orange, 10/2010-12/2012:**

*"Since i could not afford to enroll in their bachelors program to go into debt \$100K, I tried to apply at a cal state university but my credits would not transfer and I would have to start from scratch. Due to this I am unable to further my education."*

**61. [REDACTED] (ID 8107), California-Orange, Project Management Administration, 1/2012-1/2015:**

*"Was lied to about accreditation and where credits could transfer[.] The credits I earned at ITT Tech wouldn't transfer to anywhere but a for profit school. I tried to transfer the credits but hit a dead end and had to give up on school altogether."*

**62. [REDACTED] (ID 7033), California-Oxnard, ISS , Information Systems Security, 12/2012-6/2015:**

*"I have a young daughter and family to feed and it is hard when about half my monthly income has to soon go to all of my student loans. Private being the worst. Went to try for a Masters and cant get in any school without basically redoing 3 yrs of education i already took."*

**63. [REDACTED] (ID 5418), California-Rancho Cordova, Computer Networking Systems, 9/2005-6/2007:**

*"The whole reason I went to this school was so I can get my Associates degree and then move on to a State school to finish my bachelors degree. I was told that many students graduated to move onto the nearest State school. After graduation, all of my credits were not transferable. I was told by the State school that they have never transferred any units from ITT Technical Institute. After graduating from ITT Technical Institute I was told by Sacramento State University and other local community colleges that my credits would never transfer. Before I signed paper work to attend ITT Technical Institute, I was told that it was very common for people to earn an Associates degree with ITT Technical Institute and move on to a State school to finish their education."*

**64. [REDACTED] (ID 2845, 5811), California-Rancho Cordova, Computer Network Systems 9/2004-3/2007:**

*"I would have to start all over again as not one of my credits transfer. I'm taking courses in programming to further my career but retaking all of the classes necessary to earn a real degree is not possible with my work schedule."*

*"I'm taking courses at the local Community College just to further my work skills and attempt to get a job as a developer (java). None of the credits I spent so much time and money to earn will even transfer to a Community College... not one credit."*

**65. [REDACTED] (ID 8410), California-Rancho Cordova, 8/2001-6/2005:**

*"I couldn't enroll in another school because my credits wouldn't transfer."*

**66. [REDACTED] (ID 7047), California-Rancho Cordova, Electronics Engineering Technology, 9/1996-5/1998:**

*"None of my credits transferred at the community college level, so I was faced with a difficult choice. Start over from scratch or continue with ITT. I chose the latter because I felt like I didn't have a choice."*

**67. [REDACTED] (ID 8291), California-Rancho Cordova, Information Systems Security, 12/2004-6/2010:**

*"I was hoping to get into a grad program in California focused on Public Policy, but none of the schools I have inquired with accept credits from ITT-Tech. To progress in any career field, I will have to earn at least another Associate and Bachelor degree."*

**68. [REDACTED] (ID 4095, 8181), California-Rancho Cordova, Computer and Electronic Engineering Technology, 12/2009-3/2011:**

*"Didn't tell me that credit does not transfer. Credit are pretty much useless. Never mentioned this at the beginning of enrollment."*

*"Was in the impression of transferable credit and wasn't told till end of Associate program. They fast track the course and not given enough time to learn. Couldn't get a job in my field of study when I put ITT on resume. Had to remove it and/or not mention about attending ITT. Wasn't told credit WOULD NOT be transferable to another college cause ITT credit is not recognize."*

**69. [REDACTED] (ID 9573), California-Rancho Cordova, Computer Electronics/Electronic Engineering, 1/1996-12/1998:**

*"I called a local college and asked about enrolling to get my Microsoft Certification and was told ITT was not able to transfer my credits. When I called ITT they said they were not. Upon enrollment I was told I could transfer my credits anywhere. Now, if I want to go back and finish I have to start all over."*

**70. [REDACTED] (ID 4497), California-Rancho Cordova, Network Systems Administrator, 6/2011-3/2013:**

*"Furthermore, I had another faculty member try to "persuade" me into staying at ITT by telling me that none of my credits would transfer to any other school. She explained this point by telling me that it was up to the other school to accept the credits and that schools hardly ever accepted credits from any other school, because they could not verify that the curriculum was similar enough to allow me to skip taking their course. I find this to be misleading information, and down right rude to tell a student that they are essentially stuck at ITT."*

**71. [REDACTED] (ID 7961), California-Rancho Cordova, Information Technology and Multimedia, 8/2004-8/2006:**

*"I have had to retake multiple classes that I had already taken at ITT Tech because my credits would not transfer. I am now enrolled in a community college and if I want an associate's degree I will have to retake ALL of my general ed classes on top of IT."*

**72. [REDACTED] (ID 2551), California-Rancho Cordova, Information Technology, 6/2013-4/2015:**

*"I attended ITT Technical Institute with the idea and conformation that when I completed my credits they would transfer. I was lied to my face and felt like a number in line. You have to remember I was there for 2 years, I asked multiple times over the year if they would I even confronted the Dean of ITT Technical Institute on Rancho Cordova and was blissfully lied to. ITT Technical Institute is a failed accredited administration my local college wont take them or my local university's ITT Technical Institute credits are nationally accredited which means there not able to be transferred which are pointless because I've wasted two years for a pointless degree."*

**73. [REDACTED] (ID 9476), California-San Bernardino, Computer Electronics Engineering Technology, 6/2010-6/2012:**

*"I was told by school personnel that I could transfer my credits to a 4-year college like Cal Poly Pomona if I got my Bachelor's degree. In retrospect, I am relieved that I did not opt in to pursue a bachelor's degree because I know now that that was false information to try to get students to*

*continue after getting an associate's degree and grow their debt to an additional \$40,000 plus interest. However, the thought of the opportunity to get my bachelor's there and transfer to Cal Poly Pomona was one of the reasons why I was happy with my decision to attend this institution. I have been wanting to go to Cal Poly Pomona for engineering and was told I could transfer to that college but found out later that credits do not transfer and I would have to start all over again."*

**74. [REDACTED] (ID 9474), California-San Bernardino, Computer Electronics, 1/2002-1/2006:**

*"Can't transfer to a regular Community college."*

*“Yes, on their accreditation I believe they mislead me as well by informing me before, during, and after enrollment; how they were fully accredited which could allow students to transfer to any other accredited U.S. college or university. However, after being a student there for a while it appeared that we had been lied to as UCF (University of Central Florida) wouldn't accept course credits due to ITT Tech not being fully accredited. I was left no where to go if I wanted to finish my degree. After I found out that ITT Techs credits were non-transferable, I lost hope in continuing my degree any further.”*

He bragged about how they had students that went on to the University of Michigan and Michigan State. He and the other recruiters all told this to myself and my classmates. Unfortunately he was dead wrong. Right before our final semester, when my classmates and I started applying to other schools to continue our education, we all found out the cruel truth, that our credits would only transfer to a select number of other online "for profit" schools. We couldn't even transfer our credits to community college. My classmates and I were all very angry but at that point, we couldn't do much but press forward and at least get our Associates Degree. As I have mentioned before, my classmates and I were under the false direction that we would be able to transfer to the college/university of our choice. When it was clear that wasn't going to happen, the recruiters and administrators pushed very hard for us to return to ITT for their Bachelor degree programs. None of us did."*

I recently moved to Oregon and was told by my employer that the only way to move up from my current position was to get a bachelors degree in Electronics Engineering. I researched three different local colleges including; University of Oregon, Oregon State University and Portland Community College. All three schools said that not a single credit from ITT Tech would transfer and that I would be starting from the beginning again. I have started taking classes but am still on pre reqs for the associates degree and haven’t even started taking classes in electronics yet. This is a current issue right now. When I graduated with my Associates degree I tried to stop going to school because at that point I began to suspect foul play from the school but I was convinced that if I wanted any credits to transfer to any graduate program I must complete the Bachelor’s degree there at ITT tech. I asked many times my recruiter and my dean if I would be able to transfer my degree for a graduate plan and I was assured that the credits for the Bachelor’s were accredited and I could be accepted in other graduate universities. So I completed the Bachelor’s and no one accepted my credits I’ve tried several universities and they always tell me I have no credits and that the school itself is not accredited. It wasn’t till late in my college program that I learned ITT was privately accredited. Not regionally like a real college. I was also told that certain classes were the equivalent of certificate programs. For Example. The Cisco Networking class was only one quarter and lightly brushed on the topics for certification. Later, I actually attended a real Cisco Networking Academy, the Certificate program for the entry level certification was 1 year of class time. Its not that I couldn’t enroll. I was able to enroll but as a new student with no existing college credit. No credits from ITT would transfer.”*

*“This is my biggest complaint. ITT told me they were accredited, and that they regularly transferred credits to other schools for people wanting to continue their education. Since the program I took at ITT was only a 2 year program, I always planned to continue my education at another school and eventually get a Bachelor’s degree in engineering. I didn’t find out until 5 years later, than all of my credits were worthless. When i tried to enroll at UW Stout, they basically laughed at my transcripts and told me I was welcome to enroll, but I would start as a freshman. Had I known my degree from ITT would saddle me with debt I am still paying off today, while at the same time being worthless in the real world, I would clearly have chosen another school. I was promised all my ITT credits would be openly accepted any any downstream education institution, specifically the University of Wisconsin schools. My plan was always to get my “first two years” of college out of the way at ITT, then continue education at a UW school where I could get a bachelors degree. I was shocked to find out how little merit my credits carried. No other school would accept them, and I didn’t have the time or money to start over. The end result was my ITT degree was the END of my education, not the beginning.”*

*“ I told the ITT recruiter that i wanted to be a cop or a lawyer and was told i could transfer to law school or any other school of choice when needed but found out later that ITT credits did not transfer, all the schools i called told me they did not accept or acknowledge ITT credits. Cooley law school in lansing told me, i would have to start all over from a accepted credited school. At the time while still at itt, i could not pursue parts of my career for further education due to ITT credits not tranfering, which ITT lied and said i could transfer any where to further my education.”*

639. [REDACTED] (ID 8437), 7/9-6/12:

*“Was never told that none of the credits would transfer. When asked if I could continue my education at local schools I was told “most certainly”. Only months after starting did I find out that was a lie. I want to enroll at my local college and none of my credits are recognized. No gens or anything. I have to start all over to get a machinist cert. They don’t even want to see the transcript as soon as I said ITT they chuckled and said sorry.”*

*“ITT explained to me that the were accredited nationally and that all my credits would transfer to other colleges. I told them at admission that my end goal was to be a Nurse Practioner. They stated that the did the BSN program and we’re working on a Masters program as well. I specifically asked upon admission with Winter that of I wanted to transfer would it be a problem or would I have to start all over at another school. She told me that because of their*

*accreditation almost all creditscore would transfer. I planned to start my BSN through them and then they closed abruptly. Now I am trying you find a college that will accept my credits and as in the case with Oklahoma Wesleyan the will transfer my credits as electives only and I have to do all GE aad Core nursing classes again. I'm already in debt and can not afford to be 100000 in debt due to them lying in the beginning. They did not only tell me this my husband was in the meeting as well. My credits will not transfer to any nursing program. I will have to start from the beginning and pull out more loans that I'm not even sure I will be able to do. If I can't pull out more loans then I can't afford to continue my education let alone start from the beginning."*

**649. [REDACTED] (ID 9136), 4/2006-8/2009:**

*“I specifically asked if the current accreditation (at the time of enrollment) had to ability to be transferred to any of my states university’s and instiutions and my academic advisor had claimed that yes, ITT credits were accepted at most state institutions. With the caveat that the credits may not be accepted at other private colleges (Apollo, Corinthian, University of Phoenix) which I had no interest in going to anyways. Once I completed my Associates I found that my credits were not accepted ANYWHERE. My only option was to double down and go back to ITT again which I declined to do. I wanted to move to a state institution (Arizona State) but couldn’t because none of my state schools would accept any ITT credits at all. I also tried another private coWestern Governors University and they didn’t accept my credits either. In my opinion if a state won’t accept your credits you are done and those credits are just a sunk cost.”*

*“They falsely told me that all of the credits I earned at ITT would transfer to a four year university if I wanted to after obtaining my Associates degree. I did attend a four year university (Webster University) but not even half of my credits from ITT transferred to my new college. I was considered a Freshmen when I enrolled at Webster. I had to retake basic computer classes when attending Webster because they would not accept the credits I’d already earned at ITT. Which in turn wound up costing me more and more money.”*
