1. [REDACTED] (ID 8963), Alabama-Bessemer, Software Engineering, 3/2007-12/2010:

*“There is no way I could further my education. I couldn't afford after seeing how many loans that school took out. I'm around 68k in debt.”*

2. [REDACTED] (ID 8011, 6091), Alabama-Bessemer, CNS Computer Network Systems, 6/2005-6/2007:

*“I have too many student loans due to ITT to be eligible to ever go to school.”*

*“Due to ITT tech I owe too much money in loans to take out any new loans to back to school.”*

3. [REDACTED] (ID 9144), Alabama-Bessemer 9/2007-3/2012:

*“I can't attend another school unless I pay for it out of pocket due to no more financial aid is available to me. This has led me to be stuck in jobs that I have to teach myself in order to accomplish or sustain a position.”*

4. [REDACTED] (ID 4835), Alabama-Bessemer, MultiMedia/Game Design, 8/2004-5/2008:

*“After the LACK of education I received from the school, I wanted to attend another school but couldn't because I was maxed out on loans.”*

5. [REDACTED] (ID 4710), Alabama-Bessemer, 3D Game Design, 8/2004-8/2008:

*“ITT Technical Institute put me in a great amount of debt, that I am not able to go to another college until the debt with this school is settled.”*

6. [REDACTED] (ID 2619, 9720), Alabama-Madison, Electrical and Electronics Engineering Technology, 6/2012-12/2014:

*“I'm not sure if I've actually hit my ceiling or not (from my understanding everyone has one) on how much federal aid I can receive for my education, but I'm sure the nearly 50K that ITT took out "on my behalf" has to be pretty close. The thought of owing that already puts me into a depression; the idea of adding to that on another school that I'll also have to put another 4 years into for a BS is just too much. I just can't.”*

*“Might sound like whining, but honestly I've been depressed as hell since this all happened and it came to light for me that I'd been scammed. I live an hour away from where I was going to school and at the time I was fairly newly married. I think about all the gas I burned, all the late nights I was up there doing classes, staying up to do busywork homework that didn't do anything for me. All the hard work and money I spent on parts for projects that were basically high school level science fair stuff. Time I spent away from my wife, and time I didn't have to be around my Mom before she passed not long ago. It's two and a half years of my life down the tube and the only reward is just about 40K in debt.”*

**7. [REDACTED] (ID 8979), Alabama-Mobile, Information Technology - Computer Network Systems, 9/2009-9/2011:**

*“Due to the amount of (predatory) student loans I have accrued by attending ITT Technical Institute, I am currently holding myself back from furthering my education. I fear that doing so would put me in a much more dire financial situation than I am current in, and for that reason, I am not currently pursuing a Master's degree (or further) at a more highly rated and respectable college.”*

**8. [REDACTED] (ID 7136), Arizona-Tempe, 1/2005-5/2007:**

**16. [REDACTED] (ID 3874), Arkansas-Little Rock, Visual Communications/Game Design, 6/2002-3/2008:**

*“I tried to be optimistic after realizing that my schooling at ITT Tech wasn't enough to land a job in the game industry. My eyes were eventually set on a private school outside the states as it was one of the best and boasted a very high placement rate; something ITT couldn't deliver on. After applying and submitting my portfolio, I was accepted! This was a great accomplishment as only 12 students were accepted per semester. I did everything I could to try and go there. I got a credit card to help pay for my seat fee (this was a holding fee that would guarantee my spot). When it came to the tuition and trying to get funding, I came up dry. I was advised that the best course of action was to take out a student line of credit. This was something only available in that country and only available to residents or people who know residents. I was told that I couldn't accrue more student loan debt, so I turned to the bank for help. I looked into getting a loan or a line of credit. I was told that I could only do one or the other and neither provided enough funding for my tuition. Additionally, the monthly payments would be too much for me to handle on top of what I was already paying and there wasn't any deferred payment options.”*
